Introduction and general information

In the present work, a solution will be given to the proposed activity
GA5-240202501-AA1-EV01 - Flowchart on the instructions of a process related to your
work, it will have a brief description and details about the process Calculation of
inaccuracies.

Development evidence

Inaccurate calculator: process by which inconsistencies are calculated in the
payments made by the taxpayer and related to arithmetic errors, in taxes, not declaring
sanctions and shielding. Here the possible states of the process are kept in mind for
the corresponding percentage calculations, as well as for the discounts made (if any).

Flowchart on the instructions of a process related to your work
